

# CHILD RESISTANT PACKAGING

Introducing the world's first lab certified child-resistant bag. With its proprietary pull to open locking zipper, thick food-grade plastic, and extra durable construction, these opaque bags provide peace of mind to parents, and law enforcement officials to ensure that medicine and dangerous items won't end up in the wrong hands.

With a **proprietary pull to open locking zipper**, our pouches provide a child-resistant solution to safeguard dangerous and toxic items that don't fit into a pill vial: cosmetics, household cleaners, detergents, batteries, toys ... the uses are endless!

Our child resistant pouches are classified in accordance with ASTM D3475 and are lab tested and certified using CPSC standards and protocol to conform to the requirements of a Poison Prevention Package (16 CFR 1700).
