

FLEXIBLE PACKAGING SOLUTIONS

SPECIALTY FOOD

At TricorBraun Flex, we are experts in flexible packaging options for the Specialty Food market. When packaging specialty food and natural products, understanding the importance of food grade packaging is critical. TricorBraun Flex is Good Manufacturing Practices (GMP) Certified, so we have full traceability, consistent manufacturing practices, and a recognized quality control process. We offer expertise in high barrier film lamination to ensure your products are kept fresh, and bags can be customized with features and closures that are beneficial for production and the consumer. We excel in many specific markets like jerky, granola, nuts, dried fruit, candy, snacks, baking products, and many more!

Contact us to find out more about the custom and stock packaging solutions that we offer.

STOCK

OVER 750 SKUs IN A WIDE VARIETY OF FORMATS AND SIZES

Our stock bags have minimum order quantities (MOQ) of one case, and ship from our warehouse within 24-48 hours of order placement.

CUSTOM

We pride ourselves on creating a smooth custom printing experience for our customers, whether it is a first time project or a new launch. We offer **Rotogravure, Flexographic, and Digital Printing**, with MOQ's starting at just 1,000 units.

POPULAR FORMATS & FEATURES

STAND-UP POUCH

- Market-friendly features such as **zipper re-closure, tear notches, hang hole, and window features**
- Strong shelf presence and attractive billboard for label and graphics

BLOCK BOTTOM BAG

- Combines the benefits of a traditional side gusseted bag and stand-up pouch
- Sits narrow on the shelf, doesn't tip over, and squares up like a box
- **Pocket zipper** offers the convenience of a zipper with the benefit of easy filling

FLAT POUCHES

- Easy to use, heat sealable and convenient packaging with multiple sizes and formats to pick from
- Great for small or single-serve products
- **Hang hole** can be added for bag to be hung from peg boards

LABEL APPLICATION SERVICE

- Application of customer-supplied labels
- Decrease in-house production time and get a consistently applied label
- Low minimum order quantities

SUSTAINABLE OPTION: BIOTRĒ™

Our Biotrē™ product line launched in 2011 as our starting point down the path to offering truly sustainable solutions, and our journey is far from over. At TricorBraun Flex, we continue to expand our Biotrē™ films and with each film we develop we get closer to our simple goal: providing the industry with packaging that protects both product and the planet.

THE EVOLUTION	
Biotrē™ 1.0	60% compostable, 60% renewable, not including the valve. Earth-friendly, heat sealable barrier material. Available in all our Biotrē™ stock packaging lines
Biotrē™ 2.0	60% compostable, all-renewable film layers and degassing valve. Currently available in our custom packaging.
Biotrē™ 3.0	Available late 2020. 100% compostable, 100% renewable, including the valve.
