

Functionality, design, and convenience are important when developing product packaging, but it is also important to ensure product ends up in the correct hands. **TricorBraun has stock child-resistant closure options to ensure packaging is designed for safety.**

FEATURES

- Ribbed or smooth sided
- Embossed, debossed and pictorial selections
- Glossy or satin finish
- Ability to customize with graphics
- 100% recyclable options
- *Contact us for size options available by style*

SUSTAINABILITY SPOTLIGHT

VISTA

Ribbed or smooth-walled, the two-piece push and turn child-resistant closure is made entirely from polypropylene to ensure disassembly is not needed before recycling. The closure is also made from less plastic.

Sizes: 33mm, 38mm, 45mm and 53mm

Options: Tops are available blank, with debossed text, or with pictogram

SECURECAP

Utilizing 25% less plastic, the closure offers the familiar push and turn functionality of a child-resistant closure, but in a one-piece design.

Sizes: 53mm Special

Options: Custom graphics on top surface available

MARKET CATEGORIES
