

SPOUTED STAND-UP POUCHES

Spouted Stand Up Pouches are a convenient solution for consumers who value responsible packaging. These flexible packages use less material than traditional rigid bottles, making them lighter and ideal for e-commerce and direct-to-consumer (DTC) shipping. The built-in plastic spout offers mess-free dispensing for liquid or granular products, and secure re-sealing for easy storage.

Consider spouted pouches as your primary package solution, or, as part of a sustainable refill system.

Package Benefits

- ✔ Clean dispensing and secure sealing
- ✔ Lighter weight optimizing shipping
- ✔ Uses less packaging material than rigid
- ✔ Full body customization available
- ✔ Filled through the top for convenience
- ✔ Includes tamper evident cap
