

SUSTAINABLE PACKAGING

# COMPLETE REFILL PACKAGING SOLUTIONS

A sustainable packaging story is no longer optional—consumers demand it. Refillable and reusable packaging is an ideal solution as it eases demand for virgin materials, reduces energy consumption, and prevents trash from piling up in our landfills and oceans.

Utilize our existing packaging solutions and customize with graphic design TODAY to tell your sustainable brand story.

## COMPLETE SUSTAINABILITY STORY

### REFILLABLE PACKAGE

Aluminum bottles with either all-plastic trigger or all-plastic/mono-material pump; spouted stand-up pouches

#### ALUMINUM BOTTLE

Reusable and refillable  
100% recyclable  
Size options available from 10 - 20 fl. oz. (28-410 neck finish)

#### ALL-PLASTIC/MONO-MATERIAL TRIGGER SPRAYER OR PUMP

All-plastic or mono-material streamlines recycling  
PCR options available depending on style

#### SPOUTED STAND-UP POUCH

Less material than traditional rigid bottles  
Clean dispensing and secure sealing  
Size options available from 500ml to 2L

### CONCENTRATE PACKAGE

Flexible Packaging (Biotrē® and PolyRecycle™) for powder or pods and Rigid Packaging for liquids

#### BIOTRĒ®

100% compostable  
Ideal for dry, free-flowing ingredients  
Available as Stand-Up Pouch, Side Gusseted Bag, or Block Bottom Bag

#### HOW2RECYCLE BY TRICORBRAUN FLEX™

How2Recycle pre-approved PE film  
Streamlines recycling  
Ideal for dry, free-flowing ingredients

#### SMALL FORMAT GLASS BOTTLES

Small format reduces material use  
Glass is 100% recyclable
