

PACKAGING SOLUTIONS

MODULAR COSMETIC PACKAGING

The ModuJar and ModuLip packages are premium double-walled packaging solutions for the skin care and cosmetics market. Due to its modular design, the bioplastic outer jar can be mixed and matched with different inner jars, closures, and bases to create 128 unique variations.

SPECS

Neck Finish: 67mm (ModuJar)

Material:

ModuJar caps and inner jar - PCR PP

External jar - Trêva; this engineered bioplastic is a cellulose-based thermoplastic offering both high performance and reduced environmental impact. Trêva is chemically resistant and dimensionally stable and has excellent flow and low birefringence.

Color/Finish Options: White, black, custom, or metalized

FEATURES & BENEFITS

ModuJar: Choose from 2 external jar shapes, 4 caps, 4 internal jars, and 4 bases = 128 Combinations
